

LEED is GREEN BUILDING

LEED, or Leadership in Energy and Environmental Design, is the most widely used green building rating system in the world.

Available for virtually all building, community and home project types, LEED provides a framework to create healthy, highly efficient and cost-saving green buildings.

LEED certification is a globally recognized symbol of sustainability achievement.

If you are serious of:

- Saving money: cost less to operate and boost employee productivity;
- Conserving energy, water, resources, generate less waste and support human health;
- Making better building material choices;
- And driving innovation.

Than LEED is the best choice.
